

**DESIGN
THE NETWORK**

BUILD THE NETWORK

**IN CHAOTIC ENVIRONMENTS,
EVERYONE BENEFITS WHEN DESIGNS LAST**

Taming the Chaos with the Summit X250e Series

**“Don’t pay the Gigabit
premium if you
don’t need the speed”**

- Advanced network features for device-centric apps at 10/100 prices
- Advanced edge integrity for mission-critical apps at 10/100 prices
- Automated provisioning for simple, hands-off port activation in low-staff environments
- Deliver consistent user experiences across the board, even when tough-to-manage branch offices and wireless are a part of the mix
- Be more responsive and deliver more quickly with a consistent set of advanced features available across the edge switch portfolio
